LOCAL MATTERS.

ATTENTION is called to a lot of well broke mules offered for sale at the Mills House Stable.

THE FAILURE of the Northern mails last night will account for the absence of our usual variety of news from the North. WE GALL attention to the card of Dr. J. H.

Smons, who has resumed his former occupation, discontinued at the beginning of the war.

DISPATCH.-The steamship Carlotta, Captain COLLINS, consigned to Messrs. STREET BROTHERS & Co., arrived from New York last night. She reached that place on Saturday, and was discharged and loaded in twenty-four hours, taking in a full cargo, and leaving for this port early on

FRUIT JUST RECEIVED .- Messrs. BART & WIRTH, of No. 57 Market street, have just received and announce for sale a choice lot of Havana fruit, consisting of oranges, pineapples, plantains, bananas, etc. They have also for sale other articles in their line, as per advertisement in this day's

SOUTHERN MUTUAL INSURANCE COMPANY OF ATHENS, GEORGIA.—Our resders will perceive, by reference to our columns this morning, that this prosperous company has established an agency in our city, and that they have selected as their business man Mr. J. L. HONOUR, whose experience in Insurance matters, and whose tact and industry, must certainly be of great advantage to the ... The office of Mr. H. is at No. 8 Bread street.

BILLIARD TOURNAMENT.-Messis, J. WALTER MONTGOMERY and EDWIN B. HAMILTON will engage in another match game on Saturday evening, at the Phelan Billiard Hall, No. 129 Meeting street. The last contest excited considerable interest in the community, and the players, not being satisfied with the results of the performance, have decided to enter the lists once more. They are both experienced knights of the cue, and a tough game is anticipated.

GERMAN ARTILLERY CHARITABLE ASSOCIATION. At a regular meeting of this association, held February 17, 1867, at their hall, the following officers were elected, and committees appointed, to serve for the ensuing year :

H. HARMS, President.
H. KLAITE, Vice-President.
F. WINDHEIM, Secretary. J. J. W. LUDEN, Treasurer.

Committee on Charity.—H. Zerbst, D. Wellbrock,
J. Itgen, W. Scheper, J. H. Borger.

Committee on Finance.—H. Klatte, C. F. Henken,
E. Rickels, C. H. Klenke, C. G. Schlepegrell.*

Slewards.—F. Junge, C. H. W. Kurth.

A DANGEROUS HOLE.—The cover to a fire well in Wall street, near Calhoun, has been recently removed or stolen, and it now presents an opening that will endanger the limbs of all travellers. The sidewalk at this point is somewhat contracted, and the hole occurring almost in the centre of the pavement, renders its avoidance a difficult operation. A little attention would soon restore the well to its former appearance, and remove a cause of dread and anxiety from that locality. Fire wells are exceedingly useful institutions in their line, but they should be kept closed when not employed by the firemen, and a new cover will greatly improve the appearance of the one in question.

Ho! FOR THE SEA ISLANDS .- It will be seen, by an advertisement in another column, that the fine and commodious steamer Emilie has been put upon the route between Edisto and this city. Capt. W. F. ADAIR is well known as an able and popular commander, and the agent, Major MOTTE A. PRIN GLE, will spare no pains to make the Emilie perfect in her accommodations. For the present semiweekly trips will be made, leaving the city every Tuesday and Friday. Freights are received daily and will be stored free of charge. The largely increasing trade between the Sea Islands and the city demands that first-class vessels should be employed, and none can be better suited for this purpose than the Emilie.

JAIL DELYERY.—These episodes have become so frequent that they hardly attract attention, and it is only when the prisoner is a noted offends: that the community are at all interested. The facilities presented for these escapades are certainly easily obtained, and the surveillance must be proportionally lax if their attempts succeed.

A prisoner by the name of HAYDEN, who was confrom the bark Regina, demonstrated to the world that he was one of those gay levanters who laugh at locks. Being allowed access to the yard, he embraced the opportunity to study the surroundings, and the survey being satisfactory, he soon placed himself outside of them, and left without ringing the bell. A plank which had been taken from one of the outbuildings was made the medium of escape With the assistance of some friends, this was placed against the wall near the Marine Hospital, and once up, the descent was easily accomplished. HAYDEN is a noted offender and an old jail bird, and his escape is to be deplored, as his hands are so given to picking and stealing that the community will suffer ere he is recaged.

Untred States Cibourt Court,—A Special Circuit Court was opened yesterday at 11 A. M., Hon. GEO. S. BEYAN presiding.

Exparte J. H. BALDWIN-In re J. H. BALDWIN vs. C. A. L. Lamar, and J. H. Baldwin vs. C. A. L. LAMAR, GARAWAY B. LAMAR, GARAWAY B. LAMAR, Jr., and James H. PHINIZY, A petition for leave to deposit in Court a transcript of the proceedings of the Circuit Court lost or misplaced. Messrs. MACBETH & BUIST, proctors for the petitioners. After hearing read the petition in this case, it is ordered and decreed, on motion of MACRETH & BUIST, solicitors for the petitioners, that the said petitioners have leave to file with the Clerk of the Court transcript of the proceedings of the Circuit Court for this District during the years 1859 and 1860 in the two cases in which the petitioner was plaintiff, and which, according to the affidavit of Mr. E. W. M. MACKEY, was copied by him verbatint from the Journal of the Court, at Hilton Head, held in the month of October, 1865.

It appearing that the original Journal of the Court has been lost or misplaced, it is further ordered, that the petitioners be served with a copy of this order, through the Marshal, and show cause wby the transcript of the Journal filed with the Clerk of the Court should not be deemed correct and proper, and that such further proceedings may be had in the same case as the petitioners may deem best.

MAYOR'S COURT, February 20.-Boston Brown, a black boy who has no knowledge of moral respon- the most highly cultivated audiences in Germany sibility, and is so careless of the loss of human life as to put rocks upon the street railroad by in the Solo of "Kurie." and in the Duett "Graceful which the cars may be made to go faster than the horses before the driver has a chance of puckering his mouth to give the whistle, was locked up for

An individual who was found lying drunk in the street, and who couldn't account for it in any other way than by taking his whiskey with water, contrary to his usual habit, was fined \$5.

A proprietor of one of those extensive establishments in the southern part of King street where they "shell goot goots," happening to see a colored woman passing his commodious seven-bynine store, and being perfectly aware that she those of the entire audience, are due to Mr. Roswanted to buy "sum ding," called her in with some persuasive remarks, and she, unable to resist his blandishments, was just about entering, ing. We have heard of many who were unavoidawhen an opponent in the same line, keeping next bly prevented from attending last night, and who door, and who had an eye on his neighbor's busi- are very anxious Mr. R. should give a repetiness, lit upon the girl "like a duck on a June bug," tion of this concert at an early day. We throw and putting his arms around her, by way of em- out this suggestion for his consideration. bracing an opportunity for a sale, attempted to make her go to his store and purchase. The com- | Few can imagine the popularity gained by Mansplainant held on to the female as he would to a DEN'S PECTORAL BALM. The question naturally high price, when the defendant let her go and arises, why should it have become so? The only proceeded to vent his wrath on the seductive merchant by seizing the lappel of his coat with a grip who are walking testimonials of its efficacy. For that made some of the bystanders believe it was nt | sale by all druggists. ready-made, and then, running his hand into the collar of his shirt, taking the starch out of it, and concluded by adding insult to injury by spitting in his face. These facts being recounted by the complainant, and he having offered to bring up a gentleman into whose face the defendant had spit several times, which was a settler for his Honor, he fined dis notorious ejector of saliva in the sum of \$10.

The injured merchant retired apparently pleased with the decision of the Court, and determined to prosecute immediately, as "no man should spit in

his face without being sued." THE MARKETS .- No surer sign of the near approach of Spring is wanted than a visit to our markets. The fruits of the earth are there displayed in bountiful profusion, and the genial faces of the old mauma; are almost hidden by the towering piles of vegetables that line their stalls on either side. The reign of Winter is over, and rpling, go to Hiram Harris, No. 59 Broad street.

the green chains thrown around Nature prove that Spring is the conqueror. In the Upper Wards and on the outskirts of the city the gardens have yielded abundantly, and their produce always brings remunerative prices to the tillers of the

Our Northern brethren, who are still suffering from the inflictions of the ley king, would feast their is in a green paradise by paying us a visit, and their palates would be tempted by dishes that are non-comeatible in their colder homes. Market gardening has been followed as an occupation by many during the past year, and their experience has been the most satisfactory. "Speed the plough" is likely to become a favorite tune, and in a few years every foot of land on Charleston Neck will be made to yield tenfold.

But the vegetable market forms only a small portion of the whole, and the different esculents that are displayed for sale would tempt even the epicure or gourmand. The meat market is well supplied with choice meats, and rich red and white joints are no rare sight. Fish, flesh and fowl are to be had in every variety, and the prices are. generally reasonable, and even the poorer classes

can obtain their supplies.

A new feature in the market, that has been introduced since the war, is the numerous tables that are scattered along the route. These are presided over by the maumas, who dispense their cooked tit-bits, home-made confectionery, &c., to their fellow-freedmen; who are extensive purchasers at these stands. The market is an omnium gatherum of all colors, races and sexes, and those who wish to study human nature can easily satisfy themselves by paying a morning visit, or, better still, defer it to Saturday evening, when the gas lights give a brighter touch to the

THE CONCERT last night, at the Citadel Square Baptist Church, was a most distinguished success. Although much was expected, no one, we believe, was disappointed. The church was filled by one fined for stealing two bales of Sea Island cotton of the most appreciative audiences we have ever planse to the many masterly performances of the evening. The clergy were largely represented, and, as was meet, occupied the seat of honor. Their presence lent solemnity to the occasion, and

doubtless exercised a wholesome influence. Mr. G. O. Robinson, the mæstro, has every rea son to feel gratified with the edat that crowned his long and laborious efforts in arranging this concert. The programme was well selected; the voices admirably chosen and well adapted to their several parts; the choruses, evidently, had been thoroughly studied, and were excellently sung. He has ly studied, and were excellently sung. He has thus added another stone to the edifice of a long Choice Family Groceries, and well-earned reputation.

?c. T. D. RUDDOCK was the organist of the evening, and added no little to the interest of the occasion. The organ is a very superb instrument, by far the largest and finest in the city, and Mr. R. showed it off in all its power. He made it equal to a large and well-appointed band of many and varied instruments, in turn simulating all of them, both separately and together. His accompaniments were the admiration of every connoissem present. The two solos, "Cum Sancto Spiritu," and RINE's "Concerto," were played with spirit and elan, if we may be pardoned so unmusical a term. The several choruses were well chosen, and rendered with great spirit. An adept by our side specially admired the Alto voices, that were soft, sweet, pathetic, clear and distinct.

The Solo "Qui Tollis," from HAYDN'S 3d Mass. offered fine scope for Mr. Woodberry's splendid bass. of large volume and of great compass. The Solo in the "Quontam" of the same Mass was sung by Mrs. Chase, whose soprano is sweet,

clear and mellow. Of the Recitative and Aria "With Verdure Clad," from "The Creation," we have never heard a better or more pleasing interpretation than was given last night by Madame PLENGE. She is clearly an artiste, both of fine talent and large and industrious cultivation. She sings with much expression, and invariably carries her audience along with her. On hearing her excellent conception of HADEN last night, we no longer wondered that she HADEN last night, we no longer wondered that she had earned the enthusiastic plaudits of some of She again gave evidence of her powers of pleasing

with Mr. ISSERTEL. Mr. ISSERTEL has one of the sweetest bass voices to be met with. He reads music well, and gives fine, clear notes, and withal has a voice of large compass. He did himself great credit. There is one feature specially in his singing that pleased us. His enunciation is clear and distinct, and every word is heard intelligently-a quality not

GOODS PURCHASED OF US DELIVERED TO

Old fogyism is not quite dead. People are still to be

found who think that health is promoted by depletion!

Was there ever such a false logic! Nature is the grand

antagonist of disease, and the depleters propose to pros-

trate nature, in order, one might suppose, to give the

enemy a double chance at the life of the patient! The

true practice is so to invigorate the vital powers as to

render them an overmatch for the elements of disease.

This can be done with HOSTETTER'S STOMACH BIT-

TERS. Of all vegetable tonics they are the most power-

ful and the most genial. At this reason, when even the

strongest organizations are liable to be affected by the alternations of stringent cold and malarious moisture,

this inestimable protective medicine is especially needed.

Persons predisposed to billousness, dyspepsis, constipa-

tion, intermittent fever, or any of the complaints which

cold weather superinduces or aggravates, should take it

regularly throughout the winter and spring months.

SHEFFIELD SCIENTIFIC SCHOOL, SHEFFIELD SCHENTIFIC SCHOOL,
ENGINEERING DEPARTMENT,
YALF COLLEGE, November 16, 1860.

I have always recommended the Faber Polygrade
Lead Pencils as the only pencils fitted for both ornamental and mathematical drawing; but, after a thorough
trial of the American lead Pencil Company, New
York, I find them superior to any pencil in use, even to
the Faber or the old English Cumberland Lead Pencil,
being a superior pencil for aketching, ornamental and
mechanical drawing, and all the ordinary, uses of a load
pencil. These pencils are very finely graded and have a very mooth lead; even the softest pencils hold the point well;
they are all that can be desired in a pencil. It gives me
great pleasure to be able to assure Americans that they
will no longer be compelled to depend upon Germany or
any other foreign market for pencils.

AGRICULTURAL.

GUANO. THE COMPOSITION OF THIS GUANO IS IDEN-TICAL WITH PERUVIAN. IT DIFFERS ONLY IN THE PROPORTIONS OF THE SAME ELEMENTS.

WHILE IT CONTAINS LESS AMMONIA, IT HAS WHILE IT CONTAINS LESS AMMONIA, IT HAS nearly twice the quantity of Phosphate of Lime, 15 per cent of which is immediately soluble. Its effects on Cotton the past season have, in many instances, excelled Peruvian Guano. It has in no case proved less active in the early growth of the crop. When droughting tervenes the crop does not suffer from its use as is not case with Peruvian Guano. By reason of the presence in it of so large a per cent. of Phosphate of Lime its use improves the soil to an extent that cannot be realized from Peruvian Guano.

Every cargo of this Guano is subjected to ried? Every cargo of this Guano is subjected to rigid inspection analysis, and is sold on a basis of actual value.

The undersigned, Agent is prepared to the control of the cont The undersigned, Agent, is prepared to furnish the tes timony of well known South Carolina planters in evidence of the superior excellence of this Guano.

J. N. ROBSON, Agent, December 4 tuthssu3mo NO. 62 EAST BAY, BAUGH'S

RAW-BONE PHOSPHATE. 200 TONS DAILY EXPECTED.

AS THE AGENT FOR THE ABOVE MANURE, I A last year subratited to Professor Shepard, of the South Carolina Medical College, a sample for analysis, and, with his endorsement, recommended it to my planting friends. I am now pleased to say that their practical experience fully confirms the Professor's opinion of its experience fully confirms the Professor's opinion of its values a manure.

The best evidence that the results of its use on cotton last year were satisfactory lies in the fact that those who then used it are this year buying it again, and in increased amounts.

A cargo of BAUGH'S RAW-BONE PHOSPHATE is now in transit for this port, and, in conformity with 'my uni in transit for this port, and, in conformity with my uniform rule, it will be sampled and analyzed by Professor Shepard upon arrival. The manufacturers have, however, placed in my nands an analysis of the cargo, made by Professor Williams, of Philadelphia, which shows the standard of the MANURE to be fully up to that of last season.

season.

The following is the report of Professor Williams, referred to above:

(Other ingredients not estimated.)

The per centage amount of Ammonia is very much greater than that obtained from most Super-Phosphates I have examined, and this, in connection with the readily soluble condition of the Bone Phosphate when acted upon by weak scides—for instance, Carbonic Acid—will account for the markedly invorable results which have been obtained from the application of your fertilizer.

Respectfully CHARLES P. WILLIAMS, Analytical and Const

J. N. ROBSON, AGENT FOR THE MANUFACTURERS,

MAPES' NITROGENIZED SUPER-PHOSPHATE OF

INTRODUCED 1854. FOR COTTON, CORN, WHEAT AND OTHER GRAIN

CROPS, TOBACCO, VEGETABLE CROPS, &c.

CONTAINS SUFFICIENT STIMULATING AMMONIACAL Animal Matter to produce rapid growth,
and to insure the complete appropriation by the plant of
the phosphates and other ingredients in the fertilizer
without exhausting the soil; does not burn the crops during drought like Peruvian Guano, or lose its strength
by the volatilization of the Amwonia.

All its constituents, excepting the Sulphur'c Acid,
being from Pones, Blood, Flesh, and other unimal
sources, and not from Mineral Phosphates or Maceral
Phosphatic Guanos, as in the case with most of the Super-Phos thates, are in a condition to become quickly
soluble in the soil, and available as food for plants.

Warranted free from adulterations and of uniform
quality.

For sale by KINSMAN & HOWELL, February 1 SOLE AGENTS, No. 153 East Bay.

J. H. RAY & CO., No. 599 BROADWAY, NEW YORK. E. FRANK COE'S

Sulphate of Lime and traces of Sulphate of Ammonia, Potash, Soda and Magnesia, with some free Sulphuric Acid, about.... Hygrometic Water expelled at 212 degroes... Hygrometic Water expelled at 212 degroes...
Combined Water (a portion of this belongs to
the Phosphate of Lime, which was estimated after its ignition; the greater part of
balance is doubtless associated with the
Animal Matter) and Animal Matter.....

2.00

The Animal Matter, as might be supposed in a fertilizer so largely derived from fish, is less highly nitrogenized than that in the Peruvian Guano. Still it will afford, during the process of decomposition, about three per cent. of Ammonia. The Oil (which is remarLably abundant) though not generally reckoned among Manures, being here associated with other less stable animal principles, cannot fail of adding to the value of the mixture, especially on light soils. The insoluble Phosphate being thoroughly organized and, at the same time, minutely divided, is also well adapted to a gradual appropriation by the plant.

divided, is also well adapted to a gradual appropriation by the plant.

According to the present sample, COE'S SUPER PHOSPHATE is a judiciously and faithfully manufactured Manure, and will not disappoint those who will give it a trial. Even if employed alone, I should expect highly remunerative results.

(Signed) CHARLES UPHAM SHEPARD.
